Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 1623

Claims 40-55 are rejected under 35 U.S.C. 112, first paragraph, for the reasons set forth in the Office Action of June 6, 2003.

Applicant's arguments filed December 8, 2003 have been considered but have not been found persuasive.

The prior art cited by applicant's has been considered but has not been found persuasive. The cited art is limited to prevention of prostate cancer with a limited number of compounds which are unrelated to the compounds encompassed by the instant claims. Note that each case is considered on its own merits. In the instant case there is no evidence that the claimed methods are effective in preventing any androgen responsive diseases. Further, note that it cannot be predicted on the basis of unrelated compounds in the prior art whether the claimed methods will be effective in preventing said diseases.

Also the instant claims encompass a large number of structurally unrelated compounds and it cannot be ascertained on the basis of data relating to 23 compounds whether the structurally unrelated compounds encompassed by the instant claims will similar activity. For example, compounds wherein R6, R7, R8, R12, R13, R14, R15, R16, R17, R18 and R19 are each hydrogen and a compound wherein each of the said R substituents is a peptide, heterocycle or a substituted oligosaccharide are structurally unrelated compounds and would not be expected to have the same activity, chemical or physical characteristics.

Art Unit: 1623

Claim 55 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The numbers set forth in claim 55 render the claim indefinite since it is not clear what is encompassed by the said numbers i.e. the scope of the invention cannot be determined.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Elli Peselev whose telephone number is (571) 272-0659. The examiner can normally be reached on 9.00-5.30.
